

LEIDEN UNIVERSITY MEDICAL CENTER

The Leiden Genetic Colloquia

The Biomedical Research Seminars of Division V

Program 2006-2007

Wednesday, October 18, 2006

Stylios Antonarakis

Conserved Non-coding Sequences

Host: Silvere van der Maarel

Wednesday, November 15, 2006

Keith Caldecott

Chromosomal Single-Strand Break Repair and Neurodegenerative Disease

Host: Leon Mullenders

Wednesday, January 17, 2007

Andrew Newby

Inflammation as a Fundamental Principle in Vascular Remodeling

Host: Rob Poelmann

Wednesday, February 21, 2007

Thierry VandenDriessche

Hemophilia: a Trailblazer for Gene Therapy

Host: Rob Hoeben

Wednesday, March 21, 2007

Nils-Göran Larsson

Aging and Mitochondrial DNA

Host: Ton Raap

Wednesday, April 18, 2007

Matthias Mann

Advances in Proteomics and its Application to Cell Signaling

Host: Andy Waters

Wednesday, May 16, 2007

Yossi Shiloh

ATM: New Insights into the DNA Damage Response

Host: AG Jochemsen

Lectures will be held at 4 p.m. in lecture hall 1 or 4 of LUMC Building 1,
For contact information, program updates and travel information, see:
