

# *The Leiden Genetic Colloquia*

## *Biomedical Research Seminars Division V*

### **Program 2008-2009**

October 1

**Thomas Brand**

University of Würzburg, Germany

***Signaling mechanisms in cardiac development***

Hosts: Peter-Bram 't Hoen and Rob Poelmann

November 19

Technology Platform Presentation: Bioinformatics and Genomics Technology at LUMC

**LGC Speaker: To be announced**

Hosts: Eline Slagboom and Johan den Dunnen

January 21

MiniSymposium: Genetic Association Studies in Colorectal Cancer

**Richard Houlston and Ian Tomlinson**

Institute of Cancer Research, Sutton and Cancer Research UK, London

***New CRC susceptibility genes: advances and future challenges***

Hosts: Peter Devilee and Juul Wijnen

February 18

MiniSymposium: Metabolic Syndrome

**Hannele Yki-Jarvinen**

Department of Medicine, Helsinki University, Finland

***Insulin resistance and fatty liver***

Hosts: Margriet Ouwens and Ko Willems van Dijk

March 18

**Jiri Lukas**

Institute of Cancer Biology, Copenhagen, Denmark

***Dynamic organization of signaling and repair machines at damaged chromosomes***

Host: Niels de Wind

April 22

Technology Platform Presentation: Proteomics and Imaging at LUMC

**Ruedi Aebersold**

Institute for Molecular Systems Biology, ETH, Zurich, Switzerland

***Quantitative proteomics and systems biology***

Hosts: Paul Hensbergen and André Deelder

May 20

**Frauke Melchior**

University of Göttingen, Germany

***Wrestling with SUMO***

Host: Alfred Vertegaal

June 17

MiniSymposium: Epigenomics

**Alex Meissner**

Broad Institute of MIT and Harvard, Boston, USA

***Genome-scale DNA methylation maps of pluripotent and differentiated cells***

Hosts: Bas Heijmans and Silvere van der Maarel

Minisymposia and Technology Platform Presentations start at 1.30 pm, LGC Lectures at 4 p.m.

Location: one of the LUMC Lecture Halls
